One Used Metalmaster HD Plasma Cutting System  
Model MPMM 1998

Reference No. 10516

Specifications:

Mess MG Systems & Welding

100 AMPS

HD 3070 HyDefinition Plasma 100-Amp oxygen plasma cutting

System with oxygen technology

Weight ..... 6,750 lbs. (3068 kg)

Hypertherm voltage ..... 3 phase, 240 volts, 480 volts

Flatbed style plasma table, tool coverage 90 x 120

26 ga. To 3/4" material thickness, mild, SST

Aluminum materials

PC controlled

Included components: hypertherm power supply (Model HD3070)

Torrirt dust collection system

Speed up your production processes hyperthermos patented hydefinition technology super-constricts the plasma jet to yield an energy density two to three times that of conventional plasma. The HD3070Os narrow kerfs produce straight, dross-free edges, essentially eliminating secondary finishing operations. Hypertherm quick-change torches and the extended service of LongLife technology reduce interruptions to minutes per week.
